

smile shapers

Clear Sequential Aligners have changed the practice of Orthodontics. Expertec's Smile Shapers Aligners are fabricated from biocompatible resin that is virtually invisible, durable & extremely comfortable.

All Smile Shapers Clear Aligners are expertly designed & created to ensure their precision & durability. The aligners will gently shift teeth into alignment, so every plan ends in a perfect smile.

Treatment Plans are patient specific & span across three varying levels. Patients are amazed how seamlessly these aligners blend in with their teeth and their lives.
